Printing Services

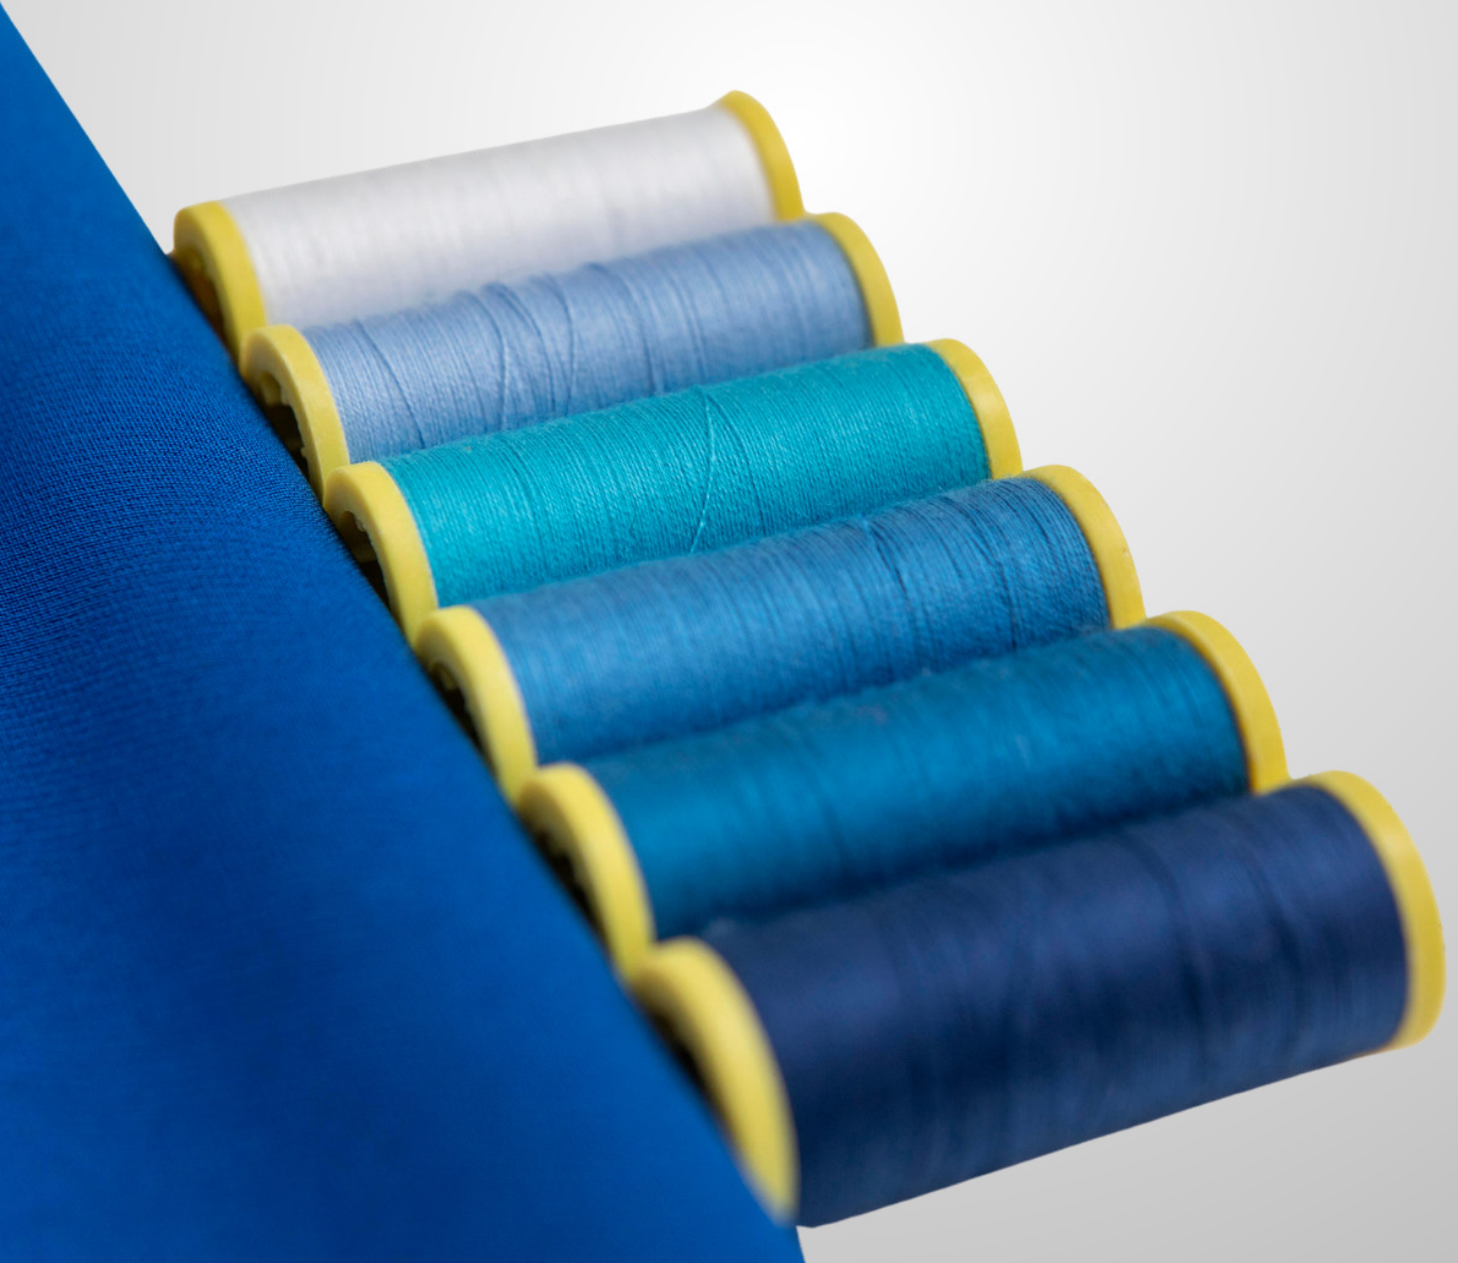

At Kotton King, we are aware that companies do need customizable solutions to meet their brand identity and operational requirements, at specific points of time. Thus, we have come up with a solution to offer you a wide range of customization services to meet the needs of B2B clients, who are looking for high-quality and accurate orders for clothing and other gifting accessories. Take a sneak peak, as to what customization services we offer. “

EMBROIDERY

Printing

To make clothing look more professional and polished, Kotton King offers an embroidery printing service, that looks elegant and has a long-lasting finish. We have cutting-edge embroidery machines, with which we can produce from simple logos to complex designs, in brilliant colours and outstanding thread quality. This customization service would be appropriate for corporate apparel, promotional items, and business handouts. We guarantee uniformity and precise positioning in every piece we curate.

SCREEN **SCREEN** *Printing*

The screen printing service from Kotton King, would be your best best bet if you are looking for high-volume and colorful printing that lasts. We follow sophisticated screen printing methods that enable fine designs and color matching on a range of textiles and products that you order from us. Opting for the screen printing service would be ideal for custom designs and volume orders that must stand out for company employees, promotional events, or even sports teams. The team at Kotton King would collaborate directly with you to guarantee that each print upholds the greatest standards of quality and remains consistent with the vision of your brand.

STICKER *Printing*

The heat-applied sticker printing technology on clothing and other goods is of excellent quality. At Kotton King, you would get strong colourful stickers with cutting-edge technology, that blend in perfectly with various materials, providing long-lasting protection from wear and tear. Also, our heat-transfer stickers, offer a fashionable and polished appearance, thus making them perfect for personalized gifts and promotional items.

DIGITAL *Printing*

Digital printing is a cutting-edge technology that allows us to transfer images directly onto fabric and various materials. This is a versatile method, that prints complex designs in vivid colors and photo-grade quality, which is difficult to produce in other traditional printing techniques. The method of digital printing is also environmentally friendly as it produces less trash and uses fewer chemicals. You can choose this technology and order from a wide range of customized garments, promotional products, and distinctive accessories from Kotton King.

Material used

Cotton

The pure cotton fabric is perfect for daily wear and a variety of other uses as well, because of its softness, comfort, and breathability. The products that we deliver are made up of the following quality of cotton

- **180 GSM-** This cotton fabric is lightweight, ideal for t-shirts and other summer clothing.
- **200 GSM-** It is a medium-weight cotton, which offers a balance between comfort and durability, and is perfect for a variety of garments.
- **220 GSM-** This is a little heavier cotton, perfect for premium quality polo t-shirts, round neck t-shirts, and other apparel for casual use.
- **260 GSM-** It is a type of thick cotton, perfect for hoodies, sweatshirts, and warmer apparel.
- **300 GSM-** This is a type of extra-heavy-weight cotton, ideal for jackets and other high-end clothing.
- **420 GSM-** It is extremely heavy-weight cotton, which is ideal for heavy workwear and high-end fashion items.

Polyester Cotton

Turnaround Time

Delivering your orders as quickly as we can is our ultimate goal at Kotton King. But, we have a standard turnaround process, which involves, roughly two weeks of production, during which we craft and prepare the orders, to meet the highest industry standards.

Following the production process, we ensure that all the items are meticulously packed to prevent any damage during the transit process, by using high-quality packing materials that protect the products and ensure that they are delivered to you in excellent condition.

After the production and packing, the shipping process further takes 15 days. However, this entirely depends on where the order needs to be delivered. The orders placed from within Singapore, usually get delivered in a week. But for international shipments, the delivery would entirely depend on the location, shipping procedures, and timeframes, due to which shipments may take beyond 15 days to reach the destination. Once, the order gets dispatched from our end, we will mail you the consignment number, with the help of which you will be able to track down your order.

While we strive hard to make sure your order gets delivered to you quickly and in top-notch quality, we would appreciate your patience and understanding for that time being.

Path 1

DESIGNER DRIVEN CUSTOMIZATION

Free Consultation

We will start with a consultation to understand your branding needs and offer assistance in choosing materials and possible designs.

Designer Collaboration

The designer in our team, would collaborate with you closely, to incorporate your specifications and produce mockups.

Review & Approval

Detailed Mockups that meet your standards, will be sent to you to examine and you can then provide us your inputs in the same.

Production

After approval of Mockups from your end, we will start the bulk production process, which will uphold high standards of quality and accuracy.

Delivery

Your order will be delivered on schedule.

Path 2

CLIENT PROVIDED MOCKUPS

Free Consultation

We would have a free consultation session with you to discuss your goals and guidance on design strategies and material selection.

Submission of Mock-Ups

You can send in your design files and mockups and we can check them to make sure that they meet our production standards.

Pre-Production Review

We would evaluate the mockups and provide comments and recommendations as necessary.

Production

After confirmation, we would move forward with the production, implementing strict protocols.

Delivery

Your personalized order will then be delivered to you on schedule.
